EXPERIENCE

Principal Full-Stack Developer

DevRemedy | Sept 2012 - Current | Remote, USA

Established a web design and development service overseeing all aspects of production from wireframes, graphics, server admin, DNS management, codebase, security, and QA. Directly manage contract developers, designers, and SEO teams.

Tech Lead & Senior Full-Stack Developer

Area23 | Jan 2016 - Dec 2023 | New York, NY

- **Dev:** Node/React/Tailwind dev for apps, websites, games, and interactive convention panels under tight deadlines with evolving requirements. Improved Lighthouse performance scores by up to 45%.
- **Design:** Converted intricate and unconventional designs into functional code, cooperated with creative directors to explore within browser limitations.
- **Leadership:** Main architect of CMS builds, React components, and style guides. Researched and trained developers on new platforms and client environments.

Senior Front-End Developer

eTrigue & 3marketeers | June 2009 - Sept 2013 | San Jose, CA

- **Software:** Design & code (HTML/CSS/jQuery) the GUI of a marketing automation tool. Captured complex interactions for analytics and lead generation.
- **Web Marketing:** CMS implementation, customization and theming, form API integration, server authentication, code animations, email and landing pages.

Front-End Developer

Solution Set | Aug 2008 - May 2009 | Palo Alto, CA

XHTML/CSS template development with emphasis on browser compatibility to support legacy systems as low as IE6. Worked alongside UI designers and back-end developers to code user interfaces and data interactions.

Layout and Graphic Designer

NASA Howard & Houston | Dec 2007 - Nov 2008 | Mountain View, CA

Rewarded NASA Group Achievement Award for the TESS satellite mission proposal. Worked closely with scientists, engineers, and technical writers to design logo and visually translate concepts and data into diagrams, graphs, and layouts.
